INVITATION

Dear Attendees,

We are pleased to announce the International Conference on Innovations in Genomics, Bioengineering, and Therapeutics—Next Gen Bio Tech 2025—to be held as a webinar on **September 18, 2025**. Organized with the support of our Editorial Board and dedicated partners, this event brings together professionals, researchers, and students to share innovations in genomics, bioengineering, public health, and therapeutics.

The program includes keynote talks, oral presentations, posters, and interactive sessions with industry experts. We look forward to your participation in this exciting global event.

Sincerely,

Next Gen Bio Tech 2025 Organizing Committee

CATEGORIES OF PARTICIPATION

- Speakers / Presenters – Share your research, innovation, or insights
- Panelists – Join thematic discussions with leading experts
- Moderators / Hosts – Facilitate engaging sessions and Q&As
- Attendees / Participants – Learn from experts and gain valuable knowledge
- Sponsors / Exhibitors – Promote your brand or innovation to a global audience
- Organizers / Coordinators – Play a key role in shaping the event experience
- Researchers / Academics – Present data-driven insights and academic findings
- Networking Participants – Build connections and initiate collaborations
- Students / Trainees – Learn, engage, and grow professionally
- Advocates / Community Leaders – Share perspectives on biotech accessibility
- Industry Professionals – Discuss real-world applications and future directions

WHO WILL PARTICIPATE?

This global event is open to all who are passionate about advancing biotechnology:

- Academic scholars and PhD researchers
- Biotech entrepreneurs and startup founders
- Medical and clinical researchers
- Healthcare professionals and regulatory experts
- Corporate leaders from pharmaceutical and life science industries
- Students and early-career scientists
- Science communicators and policy advocates

Participation may require submission of an abstract, presentation, e-poster, or video presentation, depending on your category. Selected abstracts and contributions will be featured in our official e-proceedings and digital showcase.
